

About Sharyn Baines

When the Secretaries in the office where she worked needed Word Processing training she just happened to be the only person in the IT department who wore a skirt. And they seemed to prefer to deal with a woman.

It didn't take long for training to become a passion and being a self-confessed IT geek the two morphed into a successful professional career.

Sharyn became the first certified Microsoft® MOUS Authorised Instructor in New Zealand. She has more than 20 years of experience in the training industry, developing and delivering technology training programmes, coaching and mentoring in-house trainers and creating courseware including e-learning.

Sharyn's professional approach to taking the "geek-speak" out of technology training has placed her as a preferred supplier of technology training and seen her training products used in many of New Zealand's leading organisations.

Sharyn lives in Waimauku, New Zealand with her husband, son and daughter. In her spare time you will find her in her vege garden, walking (chasing) her Boxer dog on Muriwai beach or enjoying good food, wine and company with family and friends. She has recently developed a passion for fishing after her best friend entered her into a Big Game competition to hunt marlin in beautiful Tutukaka, New Zealand. "We hooked a striped marlin but sadly it got away. We're going back next year to find it"!

Marlin fishing, Tutukaka, NZ
